

## IBM Cognos Analytics Authorized User Modernization 12.0

Published date : November 29, 2023

Online version : <https://www.ibm.com/terms/?id=L-LSCS-K9WBD7&lc=en>

### LICENSE INFORMATION

The Programs listed below are licensed under the following License Information terms and conditions in addition to the Program license terms previously agreed to by Client and IBM. If Client does not have previously agreed to license terms in effect for the Program, the International Program License Agreement (i125-3301-15) applies.

Program Name (Program Number):

IBM Cognos Analytics Authorized User Modernization 12.0 (5900-ABM)

The following standard terms apply to Licensee's use of the Program.

#### Bundled Programs

Licensee is authorized to install and use the Bundled Programs identified below. A Bundled Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Bundled Program. In the event of conflict, the terms in this License Information document supersede the Bundled Program's terms. The Principal Program and any Bundled Programs are all part of the Program, as a whole. Therefore, Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Bundled Programs, unless separate entitlements are provided within this License Information document. For example, if this Program were licensed on a VPC (Virtual Processor Core) basis and Licensee were to install the Principal Program or a Bundled Program on a 10 VPC machine and another Bundled Program on a second 10 VPC machine, Licensee would be required to obtain 20 VPC entitlements to the Program.

Bundled Programs:

IBM Cloud Pak for Data Enterprise Edition

IBM Cognos Analytics Authorized User Cartridge for IBM Cloud Pak for Data

#### Supporting Programs

Licensee is authorized to install and use the Supporting Programs identified below only to support Licensee's use of the Principal Program under this Agreement. The phrase "to support Licensee's use" would only include those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting Program. The Supporting Programs may not be used for any other purpose. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Supporting Programs, unless separate entitlements are provided within this License

Information document. For example, if this Program were licensed on a VPC (Virtual Processor Core) basis and Licensee were to install the Principal Program or a Supporting Program on a 10 VPC machine and another Supporting Program on a second 10 VPC machine, Licensee would be required to obtain 20 VPC entitlements to the Program.

#### Supporting Programs:

- IBM Cognos Dashboards
- IBM Cognos for Microsoft Office
- IBM Cognos Analytics for Jupyter Notebook

#### Source Components and Sample Materials

The Program includes components in source code form ("Source Components"), or other materials identified as Sample Materials or both. Licensee may copy and modify Source Components and Sample Materials for internal use only within the limits of the license rights under this Agreement; provided, however, that Licensee may not alter or delete any copyright information or notices contained in the Source Components or Sample Materials. IBM provides the Source Components and Sample Materials without obligation of support and "AS IS", WITH NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

The following units of measure may apply to Licensee's use of the Program.

#### Authorized User

Authorized User is a unit of measure by which the Program can be licensed. An Authorized User is a unique person who is given access to the Program. The Program may be installed on any number of computers or servers and each Authorized User may have simultaneous access to any number of instances of the Program at one time. Licensee must obtain separate, dedicated entitlements for each Authorized User given access to the Program in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) through any means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.

#### Virtual Processor Core

Virtual Processor Core is a unit of measure by which the Program can be licensed. A Physical Server is a physical computer that is comprised of processing units, memory, and input/output capabilities and that executes requested procedures, commands, or applications for one or more users or client devices. Where racks, blade enclosures, or other similar equipment is being employed, each separable physical device (for example, a blade or a rack-mounted device) that has the required components is considered itself a separate Physical Server. A Virtual Server is either a virtual computer created by partitioning the resources available to a Physical Server or an unpartitioned Physical Server. A Processor Core is a functional unit within a computing device that interprets and

executes instructions. A Processor Core consists of at least one instruction control unit and one or more arithmetic or logic units. A Virtual Processor Core is a Processor Core in an unpartitioned Physical Server, or a virtual core assigned to a Virtual Server. Licensee must obtain entitlements for each Virtual Processor Core made available to the Program.

Licensee can deploy the Program (if supported) using full capacity licensing, sub-capacity licensing (<https://www.ibm.com/software/passportadvantage/subcaplicensing.html>), or container licensing (<https://www.ibm.com/software/passportadvantage/containerlicenses.html>). See the linked websites for more information.

In addition to the above, the following terms apply to Licensee's use of the Program.

## 1. Prohibited Components

Licensee is not authorized to use any of the following components or functions of the Program:

- IBM Cognos Administration, except Data Source Connections
- Notebook (of IBM Cognos Analytics for Jupyter Notebook)
- Manage, except Data server connections

## 2. Prerequisite Programs

In addition to the entitlements required for the Program, Licensee must also obtain at least one entitlement to IBM Cognos Analytics Administrator Modernization.

## 3. Bursting Feature Requirement

Each person who is provided an output(s) of the Program through the Bursting feature or who authenticates to the Program must be covered by an appropriate entitlement.

## 4. Program Details:

Licensee's entitlement(s) to the Bundled Program can be utilized according to one (1) of the following entitlement options:

### Option 1:

IBM Cognos Analytics Authorized User Cartridge for IBM Cloud Pak for Data

- Conversion Entitlement Ratio: 1 Authorized User/ 1 Authorized User

IBM Cloud Pak For Data Enterprise Edition

- Additional Entitlement Ratio: 1 VPC/ 90 Authorized Users (includes Authorized Users of IBM Cognos Analytics Administrator Modernization, IBM Cognos Analytics Authorized Explorer Modernization, IBM Cognos Analytics Authorized User Modernization, and IBM Cognos Analytics Authorized Viewer Modernization, collectively)

IBM Cloud Pak for Data Enterprise Edition

- Additional Entitlement Ratio: 1 VPC / 12 Authorized Users

## Option 2:

### IBM Cloud Pak for Data Enterprise Edition

- Conversion Entitlement Ratio: 1 VPC/ 90 Authorized Users (includes Authorized Users of IBM Cognos Analytics Administrator Modernization, IBM Cognos Analytics Authorized Explorer Modernization, IBM Cognos Analytics Authorized User Modernization, and IBM Cognos Analytics Authorized Viewer Modernization, collectively)

### IBM Cloud Pak for Data Enterprise Edition

- Additional Entitlement Ratio: 1 VPC / 12 Authorized Users

Under this Option 2, Licensee is prohibited from using IBM Cognos Analytics Authorized User Cartridge for IBM Cloud Pak for Data.

## 5. Red Hat Products

Red Hat Products listed below include software, maintenance and support in the form of Red Hat Software Subscriptions governed by a separate Red Hat Enterprise Agreement set forth at <https://www.redhat.com/en/about/agreements> (or if applicable, a negotiated version of such agreement between Licensee and Red Hat). Under this License Information, Licensee acquires Red Hat Software Subscription entitlements for the listed Red Hat Products in the quantities and/or ratios set out below in this LI. The Red Hat Software Subscription entitlements are applicable and valid only to the extent the Red Hat Products are used in support of the Program, and only while Licensee has IBM Software Subscription and Support (S&S) in effect for the Program. Red Hat Software Subscription entitlements do not include support of the Red Hat Products to run, deploy or otherwise support any software other than the Program, and Licensee acknowledges additional per unit fees at Red Hat standard rates will apply for any broader usage.

Red Hat's standard Software Subscription support does not include Red Hat's remote access to Licensee's network and/or systems, but, if the parties mutually agree that remote access is needed for a support issue, such remote access is subject to the terms of the Remote Access Rider to the Red Hat agreement set forth at:

<https://www.redhat.com/wapps/tnc/standalone/RemoteAccessRider> (Red Hat login required).

If Licensee's Program entitlement is designated "Reserved", the below entitlements to the Red Hat Products are not included and do not apply.

### Red Hat Product:

#### Red Hat Enterprise Linux

- Additional Entitlement Ratio: 1 VPC/ 1 VPC

#### Red Hat OpenShift Container Platform

- Additional Entitlement Ratio: 3 VPC/ 1 VPC

"Additional Entitlement Ratio n/m" means that Licensee receives some number ('n')

entitlements of the indicated metric for the identified program for every specified number ('m') entitlements of the specified metric for the Program as a whole. The specified ratio does not apply to any entitlements for the Program that are not of the required metric type. The number of entitlements for the identified program is rounded up to a multiple of 'n'.

"Conversion Entitlement Ratio n/m" means that Licensee can convert some number ('n') entitlements of the indicated metric for the listed program for every specified number ('m') entitlements of the specified metric for the Program. Once converted, Licensee may only use such converted entitlements for the listed program. The specified conversion does not apply to any entitlements for the Program that are not of the required metric type.

## 6. Use of Usage Metering Data

The Program enables use of a usage metering dashboard (the "Dashboard") that enables the display and monitoring of certain data and metrics regarding Licensee's deployment and usage of IBM and non-IBM software programs, as well as the computing environment on which they are deployed ("Usage Metering Data"). Usage of the Dashboard requires registration on either the Red Hat Marketplace or IBM Software Central. Licensee's usage of the Dashboard and IBM's use and sharing of Usage Metering Data are governed by the terms of the Service Description for the Red Hat Marketplace, Operated by IBM, available here: <https://www.ibm.com/support/customer/csol/terms?id=i126-8719>, and if Licensee enables or uses the Dashboard, Licensee agrees to those terms.
