**IMPORTANT: READ CAREFULLY**

Two license agreements are presented below.

1. IBM International License Agreement for Evaluation of Programs
2. IBM International Program License Agreement

If Licensee is obtaining the Program for purposes of productive use (other than evaluation, testing, trial "try or buy," or demonstration): By clicking on the "Accept" button below, Licensee accepts the IBM International Program License Agreement, without modification.

If Licensee is obtaining the Program for the purpose of evaluation, testing, trial "try or buy," or demonstration (collectively, an "Evaluation"): By clicking on the "Accept" button below, Licensee accepts both (i) the IBM International License Agreement for Evaluation of Programs (the "Evaluation License"), without modification; and (ii) the IBM International Program License Agreement (the "IPLA"), without modification.

The Evaluation License will apply during the term of Licensee's Evaluation.

The IPLA will automatically apply if Licensee elects to retain the Program after the Evaluation (or obtain additional copies of the Program for use after the Evaluation) by entering into a procurement agreement (e.g., the IBM International Passport Advantage or the IBM Passport Advantage Express agreements).

The Evaluation License and the IPLA are not in effect concurrently; neither modifies the other; and each is independent of the other.

The complete text of each of these two license agreements follow.

**LICENSE INFORMATION**

The Programs listed below are licensed under the following License Information terms and conditions in addition to the Program license terms previously agreed to by Client and IBM. If Client does not have previously agreed to license terms in effect for the Program, the International License Agreement for Evaluation of Programs (i125-5543-06) applies.

Program Name (Program Number):

IBM Db2 Advanced Edition Cartridge 12.1 - Update 1 (Evaluation)

The following standard terms apply to Licensee's use of the Program.

Evaluation Period

The evaluation period begins on the date that Licensee agrees to the terms of this Agreement and ends after 90 days.

## Bundled Programs

Licensee is authorized to install and use the Bundled Programs identified below. A Bundled Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Bundled Program. In the event of conflict, the terms in this License Information document supersede the Bundled Program's terms. The Principal Program and any Bundled Programs are all part of the Program, as a whole. Therefore, Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Bundled Programs, unless separate entitlements are provided within this License Information document. For example, if this Program were licensed on a VPC (Virtual Processor Core) basis and Licensee were to install the Principal Program or a Bundled Program on a 10 VPC machine and another Bundled Program on a second 10 VPC machine, Licensee would be required to obtain 20 VPC entitlements to the Program.

### Bundled Programs:

IBM Db2 Advanced Edition

IBM Db2 Advanced Enterprise Server Edition

IBM Db2 Enterprise Server Edition

## Supporting Programs

Licensee is authorized to install and use the Supporting Programs identified below only to support Licensee's use of the Principal Program under this Agreement. The phrase "to support Licensee's use" would only include those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting Program. The Supporting Programs may not be used for any other purpose. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Supporting Programs, unless separate entitlements are provided within this License Information document. For example, if this Program were licensed on a VPC (Virtual Processor Core) basis and Licensee were to install the Principal Program or a Supporting Program on a 10 VPC machine and another Supporting Program on a second 10 VPC machine, Licensee would be required to obtain 20 VPC entitlements to the Program.

### Supporting Programs:

IBM Cloud Pak for Data Enterprise Edition

IBM Fusion

## Permitted Components

Licensee is permitted to use only the following components or functions of the identified Bundled or Supporting Program:

## IBM Cloud Pak for Data Enterprise Edition

- Common core services
- Common database management UI
- Db2 Data Management Console
- IBM Cloud Pak Foundational Services
  - Business Teams Service
  - Certificate Management
  - Events Operator
  - Flink
  - Identity Management
  - Installer
  - Integrated UI
  - License Service
  - License Service Reporter
  - OpenSearch
  - Usage Metering Service

## Prohibited Components

Licensee is not authorized to use any of the following components or functions of the Program:

Licensee is not authorized to use any of the following components or functions of the Program:

IBM Software Hub Premium and IBM Software Hub AI Assistant features as specified in the documentation (of IBM Software Hub)

## Modifiable Third Party Code

To the extent, if any, in the NOTICES file IBM identifies third party code as "Modifiable Third Party Code," IBM authorizes Licensee to 1) modify the Modifiable Third Party Code and 2) reverse engineer the Program modules that directly interface with the Modifiable Third Party Code provided that it is only for the purpose of debugging Licensee's modifications to such third party code. IBM's service and support obligations, if any, apply only to the unmodified Program.

## Separately Licensed Code

Each of the components listed in the NON\_IBM\_LICENSE file is considered "Separately Licensed Code" licensed to Licensee under the terms of the applicable third party license agreement(s) set forth in the NON\_IBM\_LICENSE file(s) that accompanies the Program, and not this Agreement. Future Program updates or fixes may contain additional Separately Licensed Code. Such additional Separately Licensed Code and related licenses are listed in the applicable NON\_IBM\_LICENSE file that accompanies the Program update or fix.

Note: Notwithstanding any of the terms in the third party license agreement, the

Agreement, or any other agreement Licensee may have with IBM, with respect to the Separately Licensed Code:

- (a) IBM provides it to Licensee WITHOUT WARRANTIES OF ANY KIND AND DISCLAIMS ANY AND ALL EXPRESS AND IMPLIED WARRANTIES AND CONDITIONS INCLUDING, BUT NOT LIMITED TO, THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE, AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE;
- (b) IBM is not liable for any direct, indirect, incidental, special, exemplary, punitive or consequential damages including, but not limited to, lost data, lost savings, and lost profits.

## LICENSE INFORMATION

The Programs listed below are licensed under the following License Information terms and conditions in addition to the Program license terms previously agreed to by Client and IBM. If Client does not have previously agreed to license terms in effect for the Program, the International Program License Agreement (i125-3301-15) applies.

Program Name (Program Number):

IBM Db2 Advanced Edition Cartridge 12.1 - Update 1 (5900-ACB)

The following standard terms apply to Licensee's use of the Program.

### Bundled Programs

Licensee is authorized to install and use the Bundled Programs identified below. A Bundled Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Bundled Program. In the event of conflict, the terms in this License Information document supersede the Bundled Program's terms. The Principal Program and any Bundled Programs are all part of the Program, as a whole. Therefore, Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Bundled Programs, unless separate entitlements are provided within this License Information document. For example, if this Program were licensed on a VPC (Virtual Processor Core) basis and Licensee were to install the Principal Program or a Bundled Program on a 10 VPC machine and another Bundled Program on a second 10 VPC machine, Licensee would be required to obtain 20 VPC entitlements to the Program.

Bundled Programs:

IBM Db2 Advanced Edition

IBM Db2 Advanced Enterprise Server Edition

IBM Db2 Enterprise Server Edition

### Supporting Programs

Licensee is authorized to install and use the Supporting Programs identified below only to support Licensee's use of the Principal Program under this Agreement. The phrase "to support Licensee's use" would only include those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting Program.

The Supporting Programs may not be used for any other purpose. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Supporting Programs, unless separate entitlements are provided within this License Information document. For example, if this Program were licensed on a VPC (Virtual Processor Core) basis and Licensee were to install the Principal Program or a Supporting Program on a 10 VPC machine and another Supporting Program on a second 10 VPC machine, Licensee would be required to obtain 20 VPC entitlements to the Program.

#### Supporting Programs:

IBM Cloud Pak for Data Enterprise Edition

IBM Fusion

#### Permitted Components

Licensee is permitted to use only the following components or functions of the identified Bundled or Supporting Program:

IBM Cloud Pak for Data Enterprise Edition

-Common core services

-Common database management UI

-Db2 Data Management Console

-IBM Cloud Pak Foundational Services

-- Business Teams Service

-- Certificate Management

-- Events Operator

-- Flink

-- Identity Management

-- Installer

-- Integrated UI

-- License Service

-- License Service Reporter

-- OpenSearch

-- Usage Metering Service

#### Prohibited Components

Licensee is not authorized to use any of the following components or functions of the Program:

Licensee is not authorized to use any of the following components or functions of the Program:

IBM Software Hub Premium and IBM Software Hub AI Assistant features as specified in the documentation (of IBM Software Hub)

## Components Not Used for Establishing Required Entitlements

Licensee may install and use the following Program components, under the license terms, but these components are not used to determine the number of entitlements required for the Program.

IBM Cloud Pak for Data Enterprise Edition

-Common database management UI

-Db2 Data Management Console

-IBM Cloud Pak for Data Control Plane

-Scheduling service

IBM Cloud Pak Foundational Services

- Installer

- Business Teams Service

- Integrated UI

- Identity Management

- License Service

- License Service Reporter

- Flink

Supporting Services (of IBM Db2 Advanced Edition)

- etcd

- REST

- Tools

- LDAP

## Modifiable Third Party Code

To the extent, if any, in the NOTICES file IBM identifies third party code as "Modifiable Third Party Code," IBM authorizes Licensee to 1) modify the Modifiable Third Party Code and 2) reverse engineer the Program modules that directly interface with the Modifiable Third Party Code provided that it is only for the purpose of debugging Licensee's modifications to such third party code. IBM's service and support obligations, if any, apply only to the unmodified Program.

## Separately Licensed Code

Each of the components listed in the NON\_IBM\_LICENSE file is considered "Separately Licensed Code" licensed to Licensee under the terms of the applicable third party license agreement(s) set forth in the NON\_IBM\_LICENSE file(s) that accompanies the Program, and not this Agreement. Future Program updates or fixes may contain additional Separately Licensed Code. Such additional Separately Licensed Code and related licenses are listed in the applicable NON\_IBM\_LICENSE file that accompanies the Program update or fix.

Note: Notwithstanding any of the terms in the third party license agreement, the Agreement, or any other agreement Licensee may have with IBM, with respect to the Separately Licensed Code:

(a) IBM provides it to Licensee WITHOUT WARRANTIES OF ANY KIND AND DISCLAIMS

ANY AND ALL EXPRESS AND IMPLIED WARRANTIES AND CONDITIONS INCLUDING, BUT NOT LIMITED TO, THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE, AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE;

(b) IBM is not liable for any direct, indirect, incidental, special, exemplary, punitive or consequential damages including, but not limited to, lost data, lost savings, and lost profits.

The following units of measure may apply to Licensee's use of the Program.

#### Virtual Processor Core

Virtual Processor Core is a unit of measure by which the Program can be licensed. A Physical Server is a physical computer that is comprised of processing units, memory, and input/output capabilities and that executes requested procedures, commands, or applications for one or more users or client devices. Where racks, blade enclosures, or other similar equipment is being employed, each separable physical device (for example, a blade or a rack-mounted device) that has the required components is considered itself a separate Physical Server. A Virtual Server is either a virtual computer created by partitioning the resources available to a Physical Server or an unpartitioned Physical Server. A Processor Core is a functional unit within a computing device that interprets and executes instructions. A Processor Core consists of at least one instruction control unit and one or more arithmetic or logic units. A Virtual Processor Core is a Processor Core in an unpartitioned Physical Server, or a virtual core assigned to a Virtual Server. Licensee must obtain entitlements for each Virtual Processor Core made available to the Program.

Licensee can deploy the Program (if supported) using full capacity licensing, sub-capacity licensing (<https://www.ibm.com/software/passportadvantage/subcaplicensing.html>), or container licensing (<https://www.ibm.com/software/passportadvantage/containerlicenses.html>). See the linked websites for more information.

In addition to the above, the following terms apply to Licensee's use of the Program.

#### 1. Program Details:

IBM Db2 Advanced Edition, IBM Db2 Advanced Enterprise Server Edition and IBM Db2 Enterprise Server Edition (Cumulative)

Conversion Entitlement Ratio:

- 1VPC/1VPC (IBM Db2 Advanced Edition)

Conversion Entitlement Ratio:

- 70PVU/1VPC (IBM Db2 Advanced Enterprise Server Edition)

Conversion Entitlement Ratio:

- 70PVU/1VPC (IBM Db2 Enterprise Server Edition)

- Additional Flat Entitlement:

12 Terabytes (TB) max usable capacity per OpenShift cluster (IBM Fusion)

### Use of Usage Metering Data

The Program enables use of a usage metering dashboard (the "Dashboard") that enables the display and monitoring of certain data and metrics regarding Licensee's deployment and usage of IBM and non-IBM software programs, as well as the computing environment on which they are deployed ("Usage Metering Data"). Usage of the Dashboard requires registration on either the Red Hat Marketplace or IBM Software Central. Licensee's usage of the Dashboard and IBM's use and sharing of Usage Metering Data are governed by the terms of the Service Description for the Red Hat Marketplace, Operated by IBM, available here: <https://www.ibm.com/support/customer/csol/terms?id=i126-8719>, and if Licensee enables or uses the Dashboard, Licensee agrees to those terms.

### 2. Bundled Program Support

Unless otherwise indicated, Licensee may deploy and use any then currently supported version or release of the Bundled Programs. If support for a deployed version or release of a Bundled Program is subsequently no longer being made available, support will not be available through this Program either. While Licensee may choose to continue to use that deployed version or release (if available), Subscription and Support (S&S) for this Program will not include support for the unsupported version or release of the Bundled Program.

### 3. Red Hat Product Detail:

Red Hat Products listed below include software, maintenance and support in the form of Red Hat Software Subscriptions governed by a separate Red Hat Enterprise Agreement set forth at <https://www.redhat.com/en/about/agreements> (or if applicable, a negotiated version of such agreement between Licensee and Red Hat). Under this License Information, Licensee acquires Red Hat Software Subscription entitlements for the listed Red Hat Products in the quantities and/or ratios set out below in this LI. The Red Hat Software Subscription entitlements are applicable and valid only to the extent the Red Hat Products are used in support of the Program, and only while Licensee has IBM Software Subscription and Support (S&S) in effect for the Program. Red Hat Software Subscription entitlements do not include support of the Red Hat Products to run, deploy or otherwise support any software other than the Program, and Licensee acknowledges additional per unit fees at Red Hat standard rates will apply for any broader usage. Red Hat's standard Software Subscription support does not include Red Hat's remote access to Licensee's network and/or systems, but, if the parties mutually agree that remote access is needed for a support issue, such remote access is subject to the terms of the Remote Access Rider to the Red Hat agreement set forth at: <https://www.redhat.com/wapps/tnc/standalone/RemoteAccessRider> (Red Hat login required).

If Licensee's Program entitlement is designated "Reserved", the below entitlements to the Red Hat Products are not included and do not apply.

Red Hat Product:

Red Hat Enterprise Linux

Additional Entitlement Ratio:

- 1 VPC/ 1 VPC

Red Hat OpenShift Container Platform

Additional Entitlement Ratio:

- 3 VPC/ 1 VPC

4. Use of IBM Fusion is limited to Fusion Data Foundation in internal deployment mode only, and when in internal deployment mode, also excludes disaster recovery, backup components, data cataloging, and advanced encryption with KMS.

"Additional Entitlement Ratio n/m" means that Licensee receives some number ('n') entitlements of the indicated metric for the identified program for every specified number ('m') entitlements of the specified metric for the Program as a whole. The specified ratio does not apply to any entitlements for the Program that are not of the required metric type. The number of entitlements for the identified program is rounded up to a multiple of 'n'.

"Cumulative" means that the number of entitlements received for the identified programs must be applied to Licensee's total, cumulative usage of all indicated programs, and are not separate entitlements for each of the identified programs individually.

"Conversion Entitlement Ratio n/m" means that Licensee can convert some number ('n') entitlements of the indicated metric for the listed program for every specified number ('m') entitlements of the specified metric for the Program. Once converted, Licensee may only use such converted entitlements for the listed program. The specified conversion does not apply to any entitlements for the Program that are not of the required metric type.

"Additional Flat Entitlement" means that regardless of the number of entitlements obtained to the Program, Licensee's use of the listed program is limited to the number of entitlement(s) listed.

Terabyte is a unit of measure by which the Program can be licensed. A Terabyte is 2 to the 40th power bytes. Licensee must obtain an entitlement for each Terabyte available to the Program. Instead of the entitlements required for the Program directly, Licensee must obtain Terabyte entitlements for this Program sufficient to cover the Terabytes managed by the Program.
