

IBM Verify Identity Access 11.0.1 (SW)

Published date : June 27, 2025

Online version : <https://www.ibm.com/terms/?id=L-MAZZ-49RVWE&lc=en>

IMPORTANT: READ CAREFULLY

Two license agreements are presented below.

1. IBM International License Agreement for Evaluation of Programs
2. IBM International Program License Agreement

If Licensee is obtaining the Program for purposes of productive use (other than evaluation, testing, trial "try or buy," or demonstration): By clicking on the "Accept" button below, Licensee accepts the IBM International Program License Agreement, without modification.

If Licensee is obtaining the Program for the purpose of evaluation, testing, trial "try or buy," or demonstration (collectively, an "Evaluation"): By clicking on the "Accept" button below, Licensee accepts both (i) the IBM International License Agreement for Evaluation of Programs (the "Evaluation License"), without modification; and (ii) the IBM International Program License Agreement (the "IPLA"), without modification.

The Evaluation License will apply during the term of Licensee's Evaluation.

The IPLA will automatically apply if Licensee elects to retain the Program after the Evaluation (or obtain additional copies of the Program for use after the Evaluation) by entering into a procurement agreement (e.g., the IBM International Passport Advantage or the IBM Passport Advantage Express agreements).

The Evaluation License and the IPLA are not in effect concurrently; neither modifies the other; and each is independent of the other.

The complete text of each of these two license agreements follow.

LICENSE INFORMATION

The Programs listed below are licensed under the following License Information terms and conditions in addition to the Program license terms previously agreed to by Client and IBM. If Client does not have previously agreed to license terms in effect for the Program, the International License Agreement for Evaluation of Programs (i125-5543-06) applies.

Program Name (Program Number):

IBM Verify Identity Access Virtual Edition(Appliance) 11.0.1 (Evaluation)

IBM Verify Identity Access Virtual Edition Non-Production(Appliance) 11.0.1 (Evaluation)

IBM Verify Identity Access Virtual Edition Advanced Access Control Module(Appliance)
11.0.1 (Evaluation)

IBM Verify Identity Access Virtual Edition Advanced Access Control Module Non-

Production(Appliance) 11.0.1 (Evaluation)

IBM Verify Identity Access Virtual Edition Federation Module(Appliance) 11.0.1
(Evaluation)

IBM Verify Identity Access Virtual Edition Federation Module Non-Production(Appliance)
11.0.1 (Evaluation)

IBM Verify Identity Access Virtual Enterprise Edition(Appliance) 11.0.1 (Evaluation)

IBM Verify Identity Access Virtual Enterprise Edition Non-Production(Appliance) 11.0.1
(Evaluation)

IBM Verify Identity Access Virtual Edition Digital Credentials Module(Appliance) 11.0.1
(Evaluation)

IBM Verify Identity Access Virtual Edition Digital Credentials Module Non-
Production(Appliance) 11.0.1 (Evaluation)

The following standard terms apply to Licensee's use of the Program.

Evaluation Period

The evaluation period begins on the date that Licensee agrees to the terms of this Agreement and ends after 90 days.

Supporting Programs

Licensee is authorized to install and use the Supporting Programs identified below only to support Licensee's use of the Principal Program under this Agreement. The phrase "to support Licensee's use" would only include those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting Program. The Supporting Programs may not be used for any other purpose. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Supporting Programs, unless separate entitlements are provided within this License Information document. For example, if this Program were licensed on a VPC (Virtual Processor Core) basis and Licensee were to install the Principal Program or a Supporting Program on a 10 VPC machine and another Supporting Program on a second 10 VPC machine, Licensee would be required to obtain 20 VPC entitlements to the Program.

Supporting Programs:

IBM Security Verify Directory 10.0 Standard Edition

IBM Security Verify Directory Integrator 10.0

IBM QRadar Log Manager Software 7.5

IBM QRadar Event Capacity 7.5

IBM DB2 Standard Edition 11.5

IBM DB2 Standard Edition 12.1

IBM Application Gateway

Prohibited Components

Licensee is not authorized to use any of the following components or functions of the Program:

IBM Security Directory Integrator Federated Directory Server

Modifiable Third Party Code

To the extent, if any, in the NOTICES file IBM identifies third party code as "Modifiable Third Party Code," IBM authorizes Licensee to 1) modify the Modifiable Third Party Code and 2) reverse engineer the Program modules that directly interface with the Modifiable Third Party Code provided that it is only for the purpose of debugging Licensee's modifications to such third party code. IBM's service and support obligations, if any, apply only to the unmodified Program.

Separately Licensed Code

Each of the components listed in the NON_IBM_LICENSE file is considered "Separately Licensed Code" licensed to Licensee under the terms of the applicable third party license agreement(s) set forth in the NON_IBM_LICENSE file(s) that accompanies the Program, and not this Agreement. Future Program updates or fixes may contain additional Separately Licensed Code. Such additional Separately Licensed Code and related licenses are listed in the applicable NON_IBM_LICENSE file that accompanies the Program update or fix.

Note: Notwithstanding any of the terms in the third party license agreement, the Agreement, or any other agreement Licensee may have with IBM, with respect to the Separately Licensed Code:

- (a) IBM provides it to Licensee WITHOUT WARRANTIES OF ANY KIND AND DISCLAIMS ANY AND ALL EXPRESS AND IMPLIED WARRANTIES AND CONDITIONS INCLUDING, BUT NOT LIMITED TO, THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE, AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE;
- (b) IBM is not liable for any direct, indirect, incidental, special, exemplary, punitive or consequential damages including, but not limited to, lost data, lost savings, and lost profits.

Source Components and Sample Materials

The Program includes components in source code form ("Source Components"), or other materials identified as Sample Materials or both. Licensee may copy and modify Source Components and Sample Materials for internal use only within the limits of the license rights under this Agreement; provided, however, that Licensee may not alter or delete any copyright information or notices contained in the Source Components or Sample Materials. IBM provides the Source Components and Sample Materials without obligation of support and "AS IS", WITH NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

LICENSE INFORMATION

The Programs listed below are licensed under the following License Information terms and conditions in addition to the Program license terms previously agreed to by Client and IBM. If Client does not have previously agreed to license terms in effect for the Program, the International Program License Agreement (i125-3301-15) applies.

Program Name (Program Number):

IBM Verify Identity Access Virtual Edition(Appliance) 11.0.1 (5725-V90)

IBM Verify Identity Access Virtual Edition Non-Production(Appliance) 11.0.1 (5725-V90)

IBM Verify Identity Access Virtual Edition Advanced Access Control Module(Appliance)
11.0.1 (5725-V90)

IBM Verify Identity Access Virtual Edition Advanced Access Control Module Non-
Production(Appliance) 11.0.1 (5725-V90)

IBM Verify Identity Access Virtual Edition Federation Module(Appliance) 11.0.1 (5725-V90)

IBM Verify Identity Access Virtual Edition Federation Module Non-Production(Appliance)
11.0.1 (5725-V90)

IBM Verify Identity Access Virtual Enterprise Edition(Appliance) 11.0.1 (5725-V90)

IBM Verify Identity Access Virtual Enterprise Edition Non-Production(Appliance) 11.0.1
(5725-V90)

IBM Verify Identity Access Virtual Edition Digital Credentials Module(Appliance) 11.0.1
(5725-V90)

IBM Verify Identity Access Virtual Edition Digital Credentials Module Non-
Production(Appliance) 11.0.1 (5725-V90)

The following standard terms apply to Licensee's use of the Program.

Supporting Programs

Licensee is authorized to install and use the Supporting Programs identified below only to support Licensee's use of the Principal Program under this Agreement. The phrase "to support Licensee's use" would only include those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting Program. The Supporting Programs may not be used for any other purpose. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Supporting Programs, unless separate entitlements are provided within this License Information document. For example, if this Program were licensed on a VPC (Virtual Processor Core) basis and Licensee were to install the Principal Program or a Supporting Program on a 10 VPC machine and another Supporting Program on a second 10 VPC machine, Licensee would be required to obtain 20 VPC entitlements to the Program.

Supporting Programs:

IBM Security Verify Directory 10.0 Standard Edition

IBM Security Verify Directory Integrator 10.0

IBM QRadar Log Manager Software 7.5

IBM QRadar Event Capacity 7.5

IBM DB2 Standard Edition 11.5

IBM DB2 Standard Edition 12.1

IBM Application Gateway

Prohibited Components

Licensee is not authorized to use any of the following components or functions of the Program:

IBM Security Directory Integrator Federated Directory Server

Non-Production Limitation

If the Program is designated as "Non-Production", Licensee can only use the Program as part of Licensee's internal development and test environment for internal non-production activities.

Components Not Used for Establishing Required Entitlements

Licensee may install and use the following Program components, under the license terms, but these components are not used to determine the number of entitlements required for the Program.

IBM DB2 Standard Edition

IBM Security Verify Directory

IBM Security Verify Directory Integrator

Modifiable Third Party Code

To the extent, if any, in the NOTICES file IBM identifies third party code as "Modifiable Third Party Code," IBM authorizes Licensee to 1) modify the Modifiable Third Party Code and 2) reverse engineer the Program modules that directly interface with the Modifiable Third Party Code provided that it is only for the purpose of debugging Licensee's modifications to such third party code. IBM's service and support obligations, if any, apply only to the unmodified Program.

Separately Licensed Code

Each of the components listed in the NON_IBM_LICENSE file is considered "Separately Licensed Code" licensed to Licensee under the terms of the applicable third party license agreement(s) set forth in the NON_IBM_LICENSE file(s) that accompanies the Program, and not this Agreement. Future Program updates or fixes may contain additional Separately Licensed Code. Such additional Separately Licensed Code and related licenses are listed in the applicable NON_IBM_LICENSE file that accompanies the Program update or fix.

Note: Notwithstanding any of the terms in the third party license agreement, the Agreement, or any other agreement Licensee may have with IBM, with respect to the Separately Licensed Code:

- (a) IBM provides it to Licensee WITHOUT WARRANTIES OF ANY KIND AND DISCLAIMS ANY AND ALL EXPRESS AND IMPLIED WARRANTIES AND CONDITIONS INCLUDING, BUT NOT LIMITED TO, THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE, AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE;
- (b) IBM is not liable for any direct, indirect, incidental, special, exemplary, punitive or consequential damages including, but not limited to, lost data, lost savings, and lost profits.

Source Components and Sample Materials

The Program includes components in source code form ("Source Components"), or other materials identified as Sample Materials or both. Licensee may copy and modify Source Components and Sample Materials for internal use only within the limits of the license rights under this Agreement; provided, however, that Licensee may not alter or delete any copyright information or notices contained in the Source Components or Sample Materials. IBM provides the Source Components and Sample Materials without obligation of support and "AS IS", WITH NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

The following units of measure may apply to Licensee's use of the Program.

Processor Value Unit (PVU)

Processor Value Unit (PVU) is a unit of measure by which the Program can be licensed. The number of PVU entitlements required is based on the processor technology (defined within the Processor Value Unit (PVU) licensing for Distributed Software website at https://www.ibm.com/software/passportadvantage/pvu_licensing_for_customers.html) and the number of processors made available to the Program. IBM continues to define a processor, for the purpose of PVU-based licensing, to be each processor core on a chip. A dual-core processor chip, for example, has two processor cores.

Licensee can deploy the Program (if supported) using full capacity licensing, sub-capacity licensing (<https://www.ibm.com/software/passportadvantage/subcaplicensing.html>), or container licensing (<https://www.ibm.com/software/passportadvantage/containerlicenses.html>). See the linked websites for more information.

User Value Unit (UVU)

User Value Unit (UVU) is a unit of measure by which the Program can be licensed. UVU Proofs of Entitlement are based on the number and type of Users for the given Program. Licensee must obtain sufficient entitlements for the number of UVUs required for Licensee's environment as specified in the table below. The UVU entitlements are specific

to the Program and type of user and may not be exchanged, interchanged, or aggregated with UVU entitlements of another program or type of user.

In addition to the above, the following terms apply to Licensee's use of the Program.

The Users for the purposes of UVU calculation are the sum of all Internal Users, External Users, and Infrequent Users given access to the Program or whose access is managed by the Program.

- An Internal User is a unique person that is given access to the Program or whose access is managed by the Program and is an employee of the Licensee or a contractor performing work on behalf of the Licensee. Each Internal User equals one User for the purpose of calculating User Value Units.
- An External User is a unique person that is given access to the Program or whose access is managed by the Program and is not an employee of the Licensee or a contractor performing work on behalf of the Licensee. A ratio of fifteen External Users equals one User for the purpose of calculating User Value Units.
- An Infrequent Internal User is an Internal User who accesses the Program or whose access is managed by the Program less than five times a year. A ratio of fifteen Infrequent Internal Users equals one User for the purpose of calculating User Value Units.
- Each Internal, External and Infrequent Internal User must be trackable and auditable.

Excluded Users from UVU License Count

A user who no longer has access to the Program and whose access is no longer managed by the Program, but whose identities are retained in the user registry for archival and audit purposes, are not counted for purposes of UVU calculation. User identities must be trackable and auditable.

User Definitions for Service Provider

If the Licensee is a Service Provider as defined in the International Passport Advantage or the International Passport Advantage Express Agreement, the UVU calculation must be based upon the following:

- For each end user customer of the Service Provider, an Internal User is a unique person that is given access to the Program or whose access is managed by the Program through or as part of the Service Provider's information technology service, and is an employee of the end user customer or a contractor performing work on behalf of the end user customer. Each Internal User equals one User for the purpose of calculating User Value Units.
- For each end user customer of the Service Provider, an External User is a unique person that is given access to the Program or whose access is managed by the Program through or as part of the Service Provider's information technology service, and is not an employee of the end user customer or a contractor performing work on behalf of the end user customer. A ratio of fifteen External Users equals one User for the purpose of calculating User Value Units.
- For each end user customer of the Service Provider, an Infrequent Internal User is an Internal User that is given access to the Program or whose access is managed by the

Program through or as part of the Service Provider's information technology service less than five times per year. A ratio of fifteen Infrequent Internal Users equals one User for the purpose of calculating User Value Units.

- For each end user customer of the Service Provider, each Internal, External and Infrequent Internal User must be trackable and auditable.

User Value Unit Conversion Table

For 1 to 5,000 Users, 1.00 UVU per User

For 5,001 to 15,000 Users, 5,000 UVUs plus 0.50 UVUs per User above 5,000

For 15,001 to 50,000 Users, 10,000 UVUs plus 0.30 UVUs per User above 15,000

For 50,001 to 150,000 Users, 20,500 UVUs plus 0.20 UVUs per User above 50,000

For 150,001 to 500,000 Users, 40,500 UVUs plus 0.10 UVUs per User above 150,000

For 500,001 to 1,000,000 Users, 75,500 UVUs plus 0.05 UVUs per User above 500,000

For 1,000,001 to 3,000,000 Users, 100,500 UVUs plus 0.025 UVUs per User above 1,000,000

For greater than 3,000,000 Users, 150,500 UVUs plus 0.01 UVUs per User above 3,000,000

The Programs licensed under this Agreement include Oracle Development Code technology (the "ODBC DriverTechnology") supplied by Oracle USA, Inc. ("Oracle"). The term "ODBC Driver Technology" includes any technology licensed to Oracle by its suppliers. As used in the Agreement, the term "IBM supplier" shall be deemed to include Oracle and its suppliers. In addition to the terms and conditions of this Agreement, as a condition of using the ODBC Driver Technology, Licensee specifically agrees as follows:

(1) IBM may remove the ODBC Driver Technology from the Program at any time and without notice, and Licensee will promptly follow instructions provided by IBM, including without limitation installing any updates, upgrades or fix packs as necessary to complete the removal of the technology.

(2) Licensee may not transfer the ODBC Driver Technology included in the Program.

(3) Should Oracle cease to provide IBM with updates, upgrades, or fixes for the ODBC Driver Technology, any obligation of IBM to provide such updates, upgrades or fixes as part of maintenance or support for the Program shall immediately cease.

Cloud Service Provider

Notwithstanding the terms in the License Agreement, Licensee is permitted to have the Program hosted by a service provider for the benefit of the Licensee.

Supporting Program Details

IBM DB2 Standard Server Edition

- Entitlement: No Metric
- Use Limitations: Use by Principal Program

"No Metric" means this Supporting Program may be installed on as many machines and used by as many persons as is reasonably necessary within the use limitations that apply to this Supporting Program.

"Use by Principal Program" means that the Supporting Program is provided exclusively for

use by the Principal Program. Neither Licensee nor any application, program or device is authorized to directly use or access the services of the Supporting Program except Licensee may access the Supporting Program to perform administrative functions for the Supporting Program such as backup, recovery and authorized configuration.

Additional Supporting Program Details

The Supporting Program may use a maximum of 16 processor cores and 128 GB of memory on each physical or virtual server; however, if the Supporting Program is used on a cluster of servers configured to work together using database partitioning or other permitted clustering technology, the Supporting Program may use a maximum of 16 processor cores and 128 GB of memory across all virtual or physical servers in that cluster.

IBM QRadar Log Manager Software

Entitlement: 1 Install

Licensee may only use IBM QRadar Log Manager Software to monitor up to 5,000 Events Per Second (EPS) and 750 IBM Security Access Manager physical or virtual appliance Log Sources. Licensee is prohibited from using this Supporting Program in connection with any other software or hardware.

Install is a unit of measure by which the Supporting Program can be licensed. An Install is an installed copy or instance of the Supporting Program on a physical or virtual disk made available to be executed on a computer. Licensee must obtain an entitlement for each Install of the Supporting Program.
