LICENSE INFORMATION

The Programs listed below are licensed under the following License Information terms and conditions in addition to the Program license terms previously agreed to by Client and IBM. If Client does not have previously agreed to license terms in effect for the Program, the International Program License Agreement (i125-3301-15) applies.

Program Name (Program Number):
IBM SPSS Statistics Base Grad Pack 31.0.0.0 (5725-A54)
IBM SPSS Statistics Standard Grad Pack 31.0.0.0 (5725-A54)

The following standard terms apply to Licensee's use of the Program.

Supporting Programs

Licensee is authorized to install and use the Supporting Programs identified below only to support Licensee's use of the Principal Program under this Agreement. The phrase "to support Licensee's use" would only include those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting Program. The Supporting Programs may not be used for any other purpose. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Supporting Programs, unless separate entitlements are provided within this License Information document. For example, if this Program were licensed on a VPC (Virtual Processor Core) basis and Licensee were to install the Principal Program or a Supporting Program on a 10 VPC machine and another Supporting Program on a second 10 VPC machine, Licensee would be required to obtain 20 VPC entitlements to the Program.

Supporting Programs:
IBM SPSS Statistics Diagnostic Utility 31.0.0.0
IBM SPSS Data Access Pack 8.3

Modifiable Third Party Code

To the extent, if any, in the NOTICES file IBM identifies third party code as "Modifiable Third Party Code," IBM authorizes Licensee to 1) modify the Modifiable Third Party Code and 2) reverse engineer the Program modules that directly interface with the Modifiable Third Party Code provided that it is only for the purpose of debugging Licensee's modifications to such third party code. IBM's service and support obligations, if any, apply only to the unmodified Program.

Separately Licensed Code

Each of the components listed in the NON_IBM_LICENSE file is considered "Separately Licensed Code" licensed to Licensee under the terms of the applicable third party license agreement(s) set forth in the NON_IBM_LICENSE file(s) that accompanies the Program, and not this Agreement. Future Program updates or fixes may contain additional Separately Licensed Code. Such additional Separately Licensed Code and related licenses are listed in the applicable NON_IBM_LICENSE file that accompanies the Program update or fix.

Note: Notwithstanding any of the terms in the third party license agreement, the Agreement, or any other agreement Licensee may have with IBM, with respect to the Separately Licensed Code:
(a) IBM provides it to Licensee WITHOUT WARRANTIES OF ANY KIND AND DISCLAIMS ANY AND ALL EXPRESS AND IMPLIED WARRANTIES AND CONDITIONS INCLUDING, BUT NOT LIMITED TO, THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE, AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE;
(b) IBM is not liable for any direct, indirect, incidental, special, exemplary, punitive or consequential damages including, but not limited to, lost data, lost savings, and lost profits.

Source Components and Sample Materials

The Program includes components in source code form ("Source Components"), or other materials identified as Sample Materials or both. Licensee may copy and modify Source Components and Sample Materials for internal use only within the limits of the license rights under this Agreement; provided, however, that Licensee may not alter or delete any copyright information or notices contained in the Source Components or Sample Materials. IBM provides the Source Components and Sample Materials without obligation of support and "AS IS", WITH NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Program Keys

For Programs which require keys to operate, Licensee may not have more keys to the Program in Licensee's Enterprise than Licensee has entitlements.

Third Party Data and Services

The Program provides access to third party data services, databases, web services, software, or other third party content (all, "Third Party Content"). Access to this Third Party Content is provided "AS-IS", WITH NO WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Access can be terminated by the relevant third parties at their sole discretion at any time. Licensee may be required to enter into separate

agreements with the third parties for the access to or use of such Third Party Content. IBM is not a party to any such separate agreements and as an express condition of this license Licensee agrees to comply with the terms of such separate agreements.

In addition to the above, the following terms apply to Licensee's use of the Program.

Academic Authorized User

If Licensee acquired an "Academic Authorized User" license, as indicated by the notation "Academic Authorized User" in a Proof of Entitlement ("PoE") for the Program, Licensee's use of the Program is restricted to classroom teaching and non-commercial academic research ("Campus Use"). Non-commercial academic research means research by degree seeking students and faculty members where (i) the results of such research are not intended primarily for the benefit of a third party; (ii) such results are made available to anyone without restriction on use, copying or further distribution; and (iii) any copy of any such result is furnished for no more than the cost of reproduction and shipping. Any other use including but not limited to university administration and operations is strictly prohibited.

Grad Packs

If Licensee acquires a "Grad Pack" license, as evidenced by the notation "Grad Pack" in the Program Name on a PoE, use of the Program is restricted to use by a Student, which is an individual who is currently enrolled in an institution of higher education to obtain a degree or participate in a continuing education program, for educational purposes and non-commercial academic research. Non-commercial academic research means research by a Student where (i) the results of such research are not intended primarily for the benefit of a third party; (ii) such results are made available to anyone without restriction on use, copying or further distribution; and (iii) any copy of any such result is furnished for no more than the cost of reproduction and shipping. Any other use, including but not limited to, university administration and operations is strictly prohibited.

Supporting Program Details

IBM SPSS Data Access Pack
- Use Limitations: Use by Principal Program

"Use by Principal Program" means that the Supporting Program is provided exclusively for use by the Principal Program. Neither Licensee nor any application, program or device is authorized to directly use or access the services of the Supporting Program except Licensee may access the Supporting Program to perform administrative functions for the Supporting Program such as backup, recovery and authorized configuration.
