LICENSE INFORMATION

The Programs listed below are licensed under the following License Information terms and conditions in addition to the Program license terms previously agreed to by Client and IBM. If Client does not have previously agreed to license terms in effect for the Program, the International Program License Agreement (i125-3301-15) applies.

Program Name (Program Number):
IBM License Metric Tool 9.2.42 (5724-T40)

The following standard terms apply to Licensee's use of the Program.

Supporting Programs

Licensee is authorized to install and use the Supporting Programs identified below only to support Licensee's use of the Principal Program under this Agreement. The phrase "to support Licensee's use" would only include those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting Program. The Supporting Programs may not be used for any other purpose. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Supporting Programs, unless separate entitlements are provided within this License Information document. For example, if this Program were licensed on a VPC (Virtual Processor Core) basis and Licensee were to install the Principal Program or a Supporting Program on a 10 VPC machine and another Supporting Program on a second 10 VPC machine, Licensee would be required to obtain 20 VPC entitlements to the Program.

Supporting Programs:

IBM Db2 Standard Edition VPC Option 12.1

Compliance Management Programs

Licensee can use the Program to help Licensee meet compliance obligations, which may be based on laws, regulations, standards or practices. Any directions, suggested usage, or guidance provided by the Program does not constitute legal, accounting, or other professional advice, and Licensee is cautioned to obtain its own legal, accounting, or other expert counsel. Licensee is solely responsible for ensuring that Licensee and Licensee's activities, applications and systems comply with all applicable laws, regulations, standards

and practices. Use of this Program does not guarantee compliance with any law, regulation, standard or practice.

Modifiable Third Party Code

To the extent, if any, in the NOTICES file IBM identifies third party code as "Modifiable Third Party Code," IBM authorizes Licensee to 1) modify the Modifiable Third Party Code and 2) reverse engineer the Program modules that directly interface with the Modifiable Third Party Code provided that it is only for the purpose of debugging Licensee's modifications to such third party code. IBM's service and support obligations, if any, apply only to the unmodified Program.

Separately Licensed Code

Each of the components listed in the NON_IBM_LICENSE file is considered "Separately Licensed Code" licensed to Licensee under the terms of the applicable third party license agreement(s) set forth in the NON_IBM_LICENSE file(s) that accompanies the Program, and not this Agreement. Future Program updates or fixes may contain additional Separately Licensed Code. Such additional Separately Licensed Code and related licenses are listed in the applicable NON_IBM_LICENSE file that accompanies the Program update or fix.

Note: Notwithstanding any of the terms in the third party license agreement, the Agreement, or any other agreement Licensee may have with IBM, with respect to the Separately Licensed Code:
(a) IBM provides it to Licensee WITHOUT WARRANTIES OF ANY KIND AND DISCLAIMS ANY AND ALL EXPRESS AND IMPLIED WARRANTIES AND CONDITIONS INCLUDING, BUT NOT LIMITED TO, THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE, AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE;
(b) IBM is not liable for any direct, indirect, incidental, special, exemplary, punitive or consequential damages including, but not limited to, lost data, lost savings, and lost profits.

Privacy

Licensee acknowledges and agrees that IBM may use cookie and tracking technologies to

collect personal information in gathering product usage statistics and information designed to help improve user experience and/or to tailor interactions with users in accordance with the IBM Online Privacy Policy, available at http://www.ibm.com/privacy/.

Source Components and Sample Materials

The Program includes components in source code form ("Source Components"), or other materials identified as Sample Materials or both. Licensee may copy and modify Source Components and Sample Materials for internal use only within the limits of the license rights under this Agreement; provided, however, that Licensee may not alter or delete any copyright information or notices contained in the Source Components or Sample Materials. IBM provides the Source Components and Sample Materials without obligation of support and "AS IS", WITH NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

In addition to the above, the following terms apply to Licensee's use of the Program.

The following are some additional terms that apply to the Program.

"Editable Content" means Content that IBM allows Licensee to copy and edit via the Program's user interface, API's or otherwise.

2. Access to Content Site; Editable Content. Subject to all of the terms and conditions of the Agreement, only for so long as Licensee is entitled to: (a) use the applicable Program features and capabilities and (b) to receive the associated Software Subscription and Support, IBM grants Licensee a non-exclusive, non-sublicensable, non-transferable right to: (i) access the Content Site relevant to such features and capabilities in accordance with the procedures and policies set forth in the applicable documentation, (ii) copy and modify Editable Content, and (iii) use the copied and modified Content applicable to such Program features and capabilities up to Licensee's Authorized Use, in all cases solely for Licensee's internal business purposes and solely in accordance with the relevant documentation. Licensee is solely responsible for any modifications that Licensee makes to the Content and assumes all risks and responsibility therefore. IBM and its suppliers have and will retain all rights, title and interest in and to the Content (including, without limitation, all patent, copyright, trademark, trade secret and other intellectual property rights) and all copies, modifications and derivative works thereof.

3. Transmission of Information by the Program. Licensee understands and acknowledges that the Program contains a feature that sends information about the technical operation of

the Program on Licensee's computer systems to IBM. Such information may include the serial number of the Program deployment and the relevant IP address or hostname on which the Program is running, necessary to determine whether Licensee's use of the Program is in compliance with Licensee's Authorized Use.

4. Additional Use Limitation. Licensee can use the Principal Program, as well as Supporting Programs provided with it, only for measuring usage of IBM products and offerings.

5. Supporting Program Details

IBM DB2
- Use Limitations: Use by Principal Program

"Use by Principal Program" means that the Supporting Program is provided exclusively for use by the Principal Program. Neither Licensee nor any application, program or device is authorized to directly use or access the services of the Supporting Program except Licensee may access the Supporting Program to perform administrative functions for the Supporting Program such as backup, recovery and authorized configuration.
